

MISSISSIPPI WORKERS' COMPENSATION COMMISSION EDI INFORMATION

- Mississippi uses the IAIABC Release 3 FROI. Trading partners interested in submitting claims via EDI should be familiar with the IAIABC implementation guidelines. For more information about the IAIABC and how to access the IAIABC EDI Implementation Guide for Release 3, please visit: www.iaabc.org

- We have the following information posted on our website at <http://www.mwcc.state.ms.us/INFO/edipacket.asp>
 1. Submission Criteria
 2. Data Element Requirement table
 3. Edit Matrix table
 4. Event table

- We are currently accepting FROI via SFTP. All files including test files, must be transmitted via FTP to the MWCC secure FTP server, using the assigned login information supplied by the Mississippi Workers' Compensation Commission.

- To begin the testing and piloting process with State of Mississippi Workers' Compensation, the following forms must be submitted to the Commission :
 - Electronic Trading Partner Transmission Profile - Sender Response
 - Mississippi Partnering Insurer Administrator List
 - Electronic Data Interchange Pilot/Parallel Partnering Agreement

Note: During the test phase, trading partners are expected to test with real data, the data will not affect the production database.
